NOTES TO TABLES

SUPPRESSION OF DATA - In order to maintain confidentiality of respondents, the Census Bureau suppresses tabulations of characteristics for small groups of people or housing units. These cells will appear as zeros in this report. It will be necessary to check the sum of characteristics against the total to determine if suppression has occurred or if the cell is a valid zero.

CDP (CENSUS DESIGNATED PLACE) - In this report, certain geographic areas are followed by the term "CDP". A CDP is a community that can be identified locally by place name, and it is a term used by the Census Bureau for a densely settled population center without legally defined corporate limits or corporate powers or functions. The designation "unincorporated place" used in the 1970 Census has been changed to census designated place.

The data in these tables are based on full count as well as samples which vary in size. Estimates based on samples are subject to sampling error, the size of which depends on the number of persons or housing units included in the sample.
